## StarTraq Dome's Bus Lane Solution

StarTraq's Bus Lane enforcement module is part of our browser-based software solution, StarTraq Dome. The Dome can offer you an end-to-end VCA approved solution to capture, verify and process your bus lane offences. Our bus lane solution comes with flexible pricing models and is hosted in the cloud which means that it does not require any hardware or software to be installed on a customer premises.

### A complete end-to-end solution

Software

Hardware

Installation / Maintenance

### Benefits

- Complete end to end solution.
- Can process other civil offences e.g. parking and environmental enforcement.
- Cloud-based = reduced IT costs.
- Only need a web-browser to use the solution.
- Risk free, no upfront capital investment.
- 15 years experience in enforcement.
- Trusted provider to over 50% of UK Police forces.

#### Pricing & Procurement

- Pay as you go or Capex pricing models available. Contact us for further details.
- Can be purchased directly through OJEU approved contracts.
